

Dr. S. Ramo

23 June 1956

US Ballistic Missile and Space Center Facility
Presentation for Mr. Quarles

WDD, WDT

General Schriever has evidently promised to help Gen Davis present Holloman facility requirements to Mr. Quarles after July 1956.

R-W work with Holloman has a direct bearing on the formulation of such a briefing, but unfortunately such work will probably be completed on a time-scale inconsistent with putting such a briefing together. Despite this fact I suspect R-W should provide the primary input.

I would like to talk to you regarding this subject, and if acceptable to you would suggest Col Ely as the contact point between R-W and Holloman with regard to the collection of this material. I suggest Col Ely because if WDD is to give such a presentation, the final work will have to be performed by a WDD person, for General Schriever.
