DELIVERY SCHEDULE

1. Twenty reconnaissance aircraft between September 56 and July 57.
2. Nine sampling and test aircraft between August 57 and December 57.
3. Six kits for air sampling by 15 June 56.

BUDGETED COST

29 aircraft, including spares and ground handling equipment  
6 air sampling kits, modification and flight test  
Production acceptance flights  
Total cost of 29 units  
Engineering accomplished on interceptor version  
Total estimated price  
Profit @ 9.5%  
TOTAL PRICE
