12 April 1976

MEMORANDUM TO ARMY SPACE PROJECT OFFICE

SUBJECT: [REDACTED] Billets for the Army

We have been receiving an increasing number of requests for [REDACTED] billets from Army elements. It is recognized that because of recent exercises and other activities, there is a greater awareness within the Army for the capabilities available from NRP systems. As a result of this increased awareness, this has resulted in the cited additional billet requests.

In order to insure that an appropriate [REDACTED] billet structure is established now and in the future for the Army, the NRO Staff needs to be briefed as to present and future billet requirements at the earliest convenient date. The NRO Staff points of contact are Major William L. Griego and Major William H. Geiger.
