Transfer of Centaur Procurement Representatives of ARDC procure-
ment met with representatives of LBZ, LBF, LBP, and WDZ, 1 Feb.
at this Headquarters concerning transfer of project Centaur procurement
from Hq ARDC to BMC. Centaur is a NASA project; however, AFBMD
has a technical group to furnish Air Force technical support to NASA.
Transfer of the contracts can probably be effected within a few weeks
and will result in consolidation of Air Force responsibilities for Centaur
at this Complex.
