DEPARTMENT OF THE AIR FORCE
WASHINGTON

OFFICE OF THE SECRETARY

27 DEC 1965

MEMORANDUM FOR DR. BROWN

SUBJECT: Disposition of General Electric (MSD) as an MOL Contractor

Please refer to Attachment 1, my memo to you of November 21, 1965, which addresses the above subject and indicates my intent to conduct an immediate and comprehensive investigation of a potentially unsatisfactory situation at GE (MSD).

I have since discussed this matter further with Generals Berg and Martin. In view of their recommendations, and in light of existing uncertainties in MOL funding, I now conclude that the investigation envisioned in Attachment 1 is not appropriate at this time. I therefore intend to defer any formal survey of GE (MSD) until after completion of MOL Phase I, at which time the requirement for such an investigation will be re-examined.

This determination does not change my previous recommendation that no action be taken at present to discontinue GE (MSD) as an MOL contractor.

B. A. SCHRIEVER
