

Mr. Jeffrey K. Harris
Assistant Secretary of the Air Force for
Space, 1994-1996

Mr. Harris managed the integration of NRO programs into three functional directorates. He was a member of the R. James Woolsey panel that studied the future of NRO systems. He was a major proponent and architect of consolidating signals intelligence systems in a new partnership with the National Security Agency. Mr. Harris directed the CORONA program declassification and established a public affairs program.
