Dr. Brockway McMillan
Director, National Reconnaissance Office
Washington, D. C.

Dear Brock:

This refers to your comments in your note of 29 March bearing on the operation recently successfully terminated during which our people provided [redacted] through his people at the STC, the data which are required, particularly the "quick look" information. I wish to point out, however, that as far as I can determine this detailed data exchange was a continuation of procedures that have long been in effect between my AP people, the [redacted] Program Office representatives at the AP, and the STC Field Test Director, rather than a new departure or resumption.

In any event, you should know that we are always anxious to lend whatever help we can in establishing and maintaining proper relationships between our two organizations to the end that the best interest of the Government as a whole is served.

Faithfully yours,

/s/ Pat
