

DEPARTMENT OF THE AIR FORCE  
WASHINGTON

OFFICE OF THE UNDER SECRETARY

3 September 1965

Memorandum for the Record

Subject: Gemini-V Photography

I approved a request this date from Colonel Sweet for release of duplicate positives of the NASA Anscochrome D-50 photography now at NPIC to him. Colonel Sweet stated that this photography was needed to properly consider requests for release of such photography from the Manned Space Center to Headquarters NASA. (In accordance with agreements reached on 1 September, copies of this photography had been delivered on 2 September to Mr. Gammon in NASA by Major Yost.)

Colonel Sweet passed on the informal comment that he understood the question of release of such photography had gotten up to White House level -- McGeorge Bundy.
