Closure Recommendation Memorandum

Case Number: 20-0098-C	Date of Entry: 06/05/2020
Primary Investigator:	(b)(3)

Allegation Information

Narrative:

(U//~~FOUO~~) The NRO OIG received an allegation of Conflict of Interest where an NRO affiliated contractor sent, via NMIS, COVID 19 related information he received as part of his duties with a local school board. Subject also included his school board e-mail contact information in the e-mail.

Last Investigative Step:

(U) None, case was only initiated.

Resolution:

(U) None, case was initiated only.

Case Closure Recommendation Justification

Additional Information:

(U) Complaint alleges that this is, at minimum, misuse of a government information system. NRO information systems policy allows for limited personal use and absent significant aggravating factors, misuse of a government information system does not rise to the threshold for the NRO OIG to investigate.

(U) Complainant stated that Subject is assigned to MID and that the e-mail was addressed for "MID-". A management referral would be redundant based on the fact Subject's management was sent the e-mail and could have addressed any concerns. (b)(3)

(U) Recommend case be closed to file as no information in the complaint rises to the threshold for an investigation or referral.
