Sec 1.4 Classification Categories:

Information may NOT be considered for classification unless it concerns:

- a) military plans, weapons systems, or operations;
- b) foreign government information;
- c) intelligence activities (including special activities), intelligence sources or methods, or cryptology;
- d) foreign relations or foreign activities of the United States including confidential sources;
- e) scientific, technological, or economic matters relating to the national security;
- f) United States Government programs for safeguarding nuclear materials or facilities;

The designation "(b)(2)" applies to information which pertains solely to the internal rules and practices of an agency; this exemption has two profiles, "high" and "low". The "high" profile permits withholding of a document which, if released, would allow circumvention of an organization rule, policy, or statute, thereby impeding the agency in the conduct of its mission. The "low" profile permits withholding if there is no public interest in the document, and it would be an administrative burden to process the request.

The designation "(b)(3)" applies to information specifically exempted by a statute establishing a particular criteria for withholding. The language of the statute must clearly state that the information will not be disclosed.

The designation "(b)(4)" applies to information such as trade secrets and commercial or financial information obtained from a company on a privileged or confidential basis which, if released, would result in competitive harm to the company.

The designation "(b)(5)" applies to inter-agency and intra-agency memoranda which are deliberative in nature; this exemption is appropriate for internal documents which are part of the decision making process and contain subjective evaluations, opinions, and recommendations.

The designation "(b)(6)" applies to information release of which could reasonably be expected to constitute a clearly unwarranted invasion of the personal privacy of individuals.

The designation "(b)(7)" applies to records or information compiled for law enforcement purposes and that (a) could reasonably be expected to interfere with law enforcement proceedings; (b) would deprive a person of a right to a fair trial or impartial adjudication; (c) could reasonably be expected to constitute an unwarranted invasion of the personal privacy of others; (d) could disclose the identity of a confidential source; (e) could disclose investigative techniques and procedures; or (f) could reasonably be expected to endanger the life or physical safety of an individual.

The designation "(b)(8)" applies to matters that are "contained in or related to examination, operating, or condition reports prepared by on behalf of or for use of any agency responsible for the regulation of supervision of financial institutions. (Not used by the NRO.)

The designation "(b)(9)" applies to geological information and data, including maps, concerning wells. (Not used by the NRO.)

08/24/2012 10:11 -- (U) OSL's response to this action indicates that they were instructed by Mr. Malone to stand down on the search for records; OSL deferred to MS&O in their response and provided no responsive documents. The MS&O response indicates that MS&O holds no responsive records, but that OSL might be a likely source for responsive documents.

(U) It appears that some internal MS&O communications may have crossed during this process..... It would be most helpful if we could get verification of the MS&O "no records" response, and get some details on any communications between MS&O and OSL with regard to this case.

(U//~~FOUO~~) Please feel free to contact and if you wish to discuss this. (b)(3)
