Description: What needs to be done? (U) Request **Second Set of INITIAL REVIEW'S** of a FOIA request by John Greenwald for "NRO Memorandums of Understanding & Comity Agreements, dated from 25 June 2009 through 13 September 2012."

(U) Please review specified MOU's for your element's equities. Please see list below for D/O's review breakdown:

MOU(#) and D/O (tasked for review)

(b)(3)

All (b)(3) redactions on this page pursuant
to 10 USC 424

(U) In performing the review for your element's equities, please remember that the FOIA requires a line-by-line review, and that reasonably segregable non-sensitive portions of documents marked as classified or FOUO should be released. Keep in mind that, in many cases, simply deleting entire paragraphs or sections of a document because they include sensitive information is not necessary, and does not constitute a proper treatment for release.

(U) A path/link to the responsive MOU's is provided below:

(b)(3)

Please note: A copy of the clean MOU is located in the folder labeled **Clean Copy-MOU's**.
Please place all treated MOU's in the folder labeled **D&O's Treated MOU's**

Why it needs to be done? FOIA, 5 U.S.C. § 522 as amended.

Basically, [REDACTED] the time lag is due to the huge amount of processing that a complex case like this one must go through before anything is finalized. I have over 190 NRO-internal emails generated on this case before any external consult work began. This case involved over [REDACTED] MOUs, almost all of which required NRO-external reviews. Because of other ongoing work, we don't have the luxury of assigning anyone to work exclusively on any given case. Something like this

[redacted] since this is a FOIA, you will need to redact (black out/identify) the FOUO information and tell us why it can't be released so that we can apply the appropriate exemption(s) to what is withheld. The entire document cannot be withheld because it contains FOUO.

(b)(3)

We'll look forward to getting that document back from you shortly.

BTW – the redaction workshop that we are holding on Thursday at 1pm is intended to provide those folks that do the treatments with a better understanding of what is required under the law. Hopefully, you'll be able to attend and bring your SMEs with you.

This is a case on a FOIA request for "all Memorandums of Understanding (MOUs) and Comity Agreements at the NRO since" the date of another FOIA request dating from 2003. Reviews were started last fall. We're returning to this case for internal coordination. Identified are seven documents that would benefit from a review by your office.

Again, we'll appreciate any suggestions with regard to other NRO elements that should review each document. We ask, however, that you do not task this review outside your element; the IART will officially task those elements based on our reviews and your suggestions.

Good Afternoon!

(U//~~FOUO~~) The IART has a FOIA request for "all Memorandums of Understanding (MOUs) and Comity Agreements at the NRO since" the date of another FOIA request dating from 2003.) A copy of the request letter is included in the case materials.

(U//~~FOUO~~) BPC [Redacted] provided responsive documents, and arranged those documents for the IART in order (b)(3) based on the Office of Primary Responsibility for each, as indicated in their records. As the initial step in the review process, the IART requests that each element tasked in this review provide a review and treatment for its equities in each of the documents in the folder accessed via the link provided. Your suggestions with regard to other NRO elements that should review each document would also be helpful. We ask, however, that you do not task this review outside your element; the IART will officially task those elements based on our reviews and your suggestions.

Case materials attached to this message include:

- 1) Request email, dated 22 June 2009
- 2) Soft Copy review instructions
- 3) Case Worksheet for recording your response (including detail of your review time.)

(U//~~FOUO~~) Please use this link to access the documents for your element's initial review:

(b)(3)

[Redacted]

For each recommended redaction, please provide your rationale for withholding that information. In completing your proposed treatment, please bear in mind that reasonably segregable releasable information should not be included in your redactions. While redaction of entire paragraphs or sections of text may be a legitimate treatment, classified and/or otherwise sensitive paragraphs may include easily segregable information that can be released. We've given a suspense date of **25 November**. If anyone involved in the process has questions about proper treatment for release, I will be glad to provide guidance or answer any questions.

Subject: F09-0095 FOIA requests of MOUs --- UNCLASSIFIED//~~FOUO~~

classification: UNCLASSIFIED//~~FOUO~~

Good Afternoon [redacted]

(b)(3)

(U//~~FOUO~~) The IART has a FOIA request for "all Memorandums of Understanding (MOUs) and Comity Agreements at the NRO since" the date of another FOIA request dating from 2003. A copy of the request letter is included in the case materials.

(U//~~FOUO~~) BPO [redacted] provided responsive documents, and arranged those documents for the IART in order (b)(3) based on the Office of Primary Responsibility for each, as indicated in their records. As the initial step in the review process, the IART requests that each element tasked in this review provide a review and treatment for its equities in each of the documents in the folder accessed via the link provided. Your suggestions with regard to other NRO elements that should review each document would also be helpful. We ask, however, that you do not task this review outside your element; the IART will officially task those elements based on our reviews and your suggestions.

Case materials attached to this message include:

- 1) Request email, dated 22 June 2009
- 2) Soft Copy review instructions
- 3) Case Worksheet for recording your response (including detail of your review time.)

(U//~~FOUO~~) Please use this link to access the documents for your elements' initial review:

[redacted]

(b)(3)

For each recommended redaction, please provide your rationale for withholding that information. In completing your proposed treatment, please bear in mind that reasonably segregable releasable information should not be included in your redactions. While redaction of entire paragraphs or sections of text may be a legitimate treatment, classified and/or otherwise sensitive paragraphs may include easily segregable information that can be released. We've given a suspense date of **25 November**. If anyone involved in the process has questions about proper treatment for release, I will be glad to provide guidance or answer any questions.

Thank you,

(b)(3)

This is in response to a FOIA request by John Greenwald for "NRO Memorandums of Understanding & Comity Agreements, dated from 25 June 2009 through 13 September 2012."

(U) Please review MOU 55-4663 for your element's equities.

(U) In performing the review for your element's equities, please remember that the FOIA requires a line-by-line review. Keep in mind that, in many cases, simply deleting entire paragraphs or sections of a document because they include sensitive information is not necessary, and does not constitute a proper treatment for release.
