Talked to Mr. Ravnitzky to determine which quarterly newsletter is the subject of his FOIA. I explained that OPA's confusion in searching was that they were not identified as OPA when they published a quarterly newsletter (the Office of Strategic Communications is identified as the publisher of the classified Space Sentinel on NRO.gov). He stated that it was the first 5 years of the Space Sentinel that he was requesting. He also stated that if the records were too burdensome, he would be willing to scope it down to fewer years.

Memo for the case record.
