 ===== (b)(3)

Hi Steve...I asked [Redacted] and [Redacted] to look at the background paper and provide their thoughts (attached). Bottom line is, I concur with the basic points of both of their responses [Redacted] (b)(5)

[Redacted] I personally do believe that, in the spirit of openness, each agency should be encouraged to, and actually should, post material of interest as their resources allow. We plan to do just that, and have already scanned in thousands of pages of previously-released material to the low side for posting as we get the indexing of the documents done. Also, I met with MSC yesterday to have them help us develop a way forward on posting material that could enable us to be the content manager for our own content, and would significantly streamline the process of posting...so, perhaps someday, release to all would be as easy to do as envisioned in the background paper. Let me know if you need anything else on this.

Patty

All -
The WH is proposing a change to FOIA policy, essentially requiring all documents released through FOIA to be posted to agency public websites. The summary of the first meeting is below, and the background paper is attached.

The next meeting is on March 18th. I would be very interested in your views prior to that meeting.

Thanks,
Jennifer
