- (U) The design of the above patch provides an unclassified symbolic representation for the NROL-71 launch where NROL-71 is the OSL mission number; Delta IV-H indicates that this mission is to be launched on a Delta IV Heavy; and VAFB stands for Vandenberg AFB where the mission will originate from.
- (U) The Eagle represents the symbol of both freedom and the United States of America. The Eagle, adorned with dog tags, is using his talons to break free from any obstacle to symbolize the program's tenacity in meeting our commitment in support of the warfighter and the intelligence community. The Eagle's facial expression displays the SPO's intensity and passion during the life cycle of the acquisition.
- (U) The partially-hidden letters on the background dog tag refer to the eagle's name while the foreground dog tag, labeled "JLC," is in honor of Joshua L. Chamberlain. Col Chamberlain was awarded the Medal of Honor for his heroism at the battle of Gettysburg. On 2 July 1863, Col Chamberlain held his position on the Union Army's southern flank at Little Round Top against repeated assault from the Confederate force. Low on ammunition, he led his men to execute a bold bayonet charge saving the vulnerable Union flank and contributing greatly to Union victory. Col Chamberlain's heroism, leadership, and commitment to service before self, exemplify the ethos of the American warfighter we serve today.
- (U) The motto "Serving Those Who Serve" again represents our commitment to deliver the mission on time in support of warfighter and intelligence community needs.
