--

Per our phone call.

Thanks for your help and support on this! Let me know if you can support this and what time (s) this week would work best for you for [ ] to come up and start working this effort on XACTA.

Thanks again!

Thanks

That works for us.

We will have him at the visitor center at 1pm.

See you tomorrow.

is flying in tomorrow morning.

Can we schedule his indoctrination with one of you for tomorrow (Thursday 18 Feb) any time after 11am?

Thanks for your support on this!

Just received confirmation re: NRO100...14 Mar...

Arrive at the visitor center between 0630-0730 to get your picture taken. Check in at the desk and tell them you're here for NRO100.

Afterward, head to the JD Hill Conference Center _____ (side room in the conference center hallway). Dress is business casual.

Class ends at 1600. Make sure you do the initial system logon after the formal portion is done around 1530.

Cheers,

Security just told me they're ready to brief you into our organization (you have tickets, but need our tickets), and...we can move forward with badging and NMIS access.

Please work with [redacted] (Ccd) [redacted] and schedule your in-brief.

I am hoping I can get you into NRO100 next Monday, so please tentatively hold this day all day...

Cheers,

[redacted]

Can't do both? I was hoping for more time with the teams together to get my guys up to speed and build some rapport. All good if we can't, just wanted to get as much as we could for you guys

We can do either day at the ACES Lab...afternoon of the 1st (1300-1600) or morning of the 2nd (0900-1300)...

Cheers,

Ok...so they are flying in early 1 March and are available to come in to the aces lab later in the day (noon or 1 pm) and then all day on 2 March (taking evening flights)

Will that work?

We're not looking at deploying ACES into WF until end of March now...hit a delay...

But, I definitely want to get you started on data collection from all of the sites. I would like to understand what the -1 skeleton is going to look like...what your guys' recommendation will be... And, it's going to have to be an all-inclusive -1 that includes all the sites/mission areas...even if it's not 100% flushed out. We have to be able to deploy ACES into the other sites with at least a DRAFT -1 that includes TTPs for them and their operators per their mission(s) and tasks.

In terms of a demo for   .we can do this at the ACES Lab...so maybe we do the kickoff at the lab, do a data call for all SOPs/CONOPS/Checklists/TTPs from all sites (I'll collect it for now and store it for you to access once you have a NMIS account), and then you come to WF with a visitor badge until you have your own so that you can watch/observe/interview...

If you agree, let's shoot for Tues or Wednesday, 1 or 2 March, to do the kickoff at the ACES lab and then you come to WF the rest of the week?

Cheers,

Hey...as far as the agenda for the kickoff, what do you have in mind? I am imagining an hour or two ACES demo for
[ ] and then a day and a half to two days of introductions/data gathering/interviews with operators at WF...or do you have other thoughts? I'm open for whatever you need. Still looking at the 1st-4th or do we need to flex to get poly issue resolved?

Also...since I am the only one doing NRO100 and getting a badge (they will only be doing visit requests) do we need(b)(6)
them to still have the poly?

No...we need to schedule a poly...that's all. That will allow the NRO100 and badge process to proceed.

In terms of [ ].I haven't submitted anything on him. If he is going to be working under this contract than I need his information to include Name, SSN, and Place of Birth.

Cheers,

[ ]

What type of poly is needed? [ ] has a polygraph from 2014. What details do you need on his? [ ] and I don't have polys.

Also are they needed before we get on premises...i.e. Is this going to delay anything?

March 1-4 is wide open...let's pick a day that works best to meet...do an informal kick-off, synchronize, etc. I'll reserve space for that day.

I'll need everyone's SSNs that will be coming so I can put in a VR (unless those individuals already have a Blue or Green badge then they can get in themselves).

Cheers,

The team is looking at wanting to come out here to DC to get rolling in the first 2 weeks of March sometime. What looks good for that and how long do you think we will need to do an initial data pull?

I am TDY all next week...the other team members are cc'd and can help plan in my absence

Looking forward to working with you brother
