Hi guys...two more pics please.

I'll send form on NMIS.

Thank you.

Expect a call and/or email from [Redacted] very soon (today or tomorrow hopefully) regarding scheduling a polygraph. We cannot move forward with your badges until we've at least SCHEDULED a polygraph.

Thank you.

Cheers,

I need to know your city of birth to get you into our system. The polygraph processing is slow but it gets done.

Thanks for your assistance.

[Redacted] – just wanted to let you know, PPC’s now officially on contract with us. Good to go.

Also, the DD254 is up with our SSO at Hanscom for approval at SCI. Our [Redacted] is tracking that.

Hi [Redacted]

For onesie-twosie folks, we can just submit them for visit requests. I am Ccing the NROC Program Security Officer, [Redacted]. He is the POC who will submit the VRs. Just email him whenever [Redacted] need to come and Cc me on the email.

Cheers,

[Redacted]

[Redacted]

Working it – we submitted the proposal to ParGov on Friday so hopefully we can be on contract in the near term which would make the 1 March start as fragged.

I will have [redacted] call you to pass his SSN – that should start the ball rolling. How do you want to handle [redacted] and [redacted] getting access – do you want their SSNs too even if they will only visit for a couple days at a time? Let me know what works best for that.

Looking forward to getting started!

Regards

Subject: PPC Contract and [redacted] clearance

Hi [redacted]

How's the contract coming along? I want to make sure things are going smoothly and we're looking at a 1 March start date for the PoP.

Also, I need [redacted] SSN ASAP so I can start his badging and NRO 100 process. Please call me at the # below and provide it.

Thank you.

Cheers,

Hi [Redacted]

Here is an additional document on that RF/Wand capability.

When can we set-up a meeting between you guys and the tech guys to discuss this?

Best,

[Redacted]

I've attached a document from the Intersense technical department providing a bit more information and analysis on the wireless wand tracking.

I don't necessarily agree with all the conclusions of the Intersense document, but it should make a good starting point for conversation with your security team.

Thanks for your patience.

I've attached a copy of the Intersense system documentation, as well as some commentary from the Oblong engineer who manages the wand development.

We have accreditation work in progress at NGA and elsewhere, but none have yet generated any formal

documentation suitable for forwarding. I'll forward them to you as they become available to me.

I'm available to answer any questions and look forward to briefing you and your team.

[redacted] is 50/50 right now on the 10am indoc for this coming Tuesday 9 Feb due to a possible trip. We will let you know if we need to reschedule.

We also need to remove [redacted] from the list of folks needing to be briefed or polygraphed. She will not be accessing the NRO.

Thanks!
