FYI:

Description: What needs to be done?

(U) Mr. John Greenewald has submitted a FOIA request for a complete review of the FY1996 CBJB.

(U) The document for review can be found in the link below. The IRRG has done a preliminary review, and information to be denied as a result of our review in marked in the document. We left only the TOC intact so you can easily identify your office's sections. We need each tasked D/O to review for its own sensitive information only. We will need to have a clear deliniation made between what you consider to be classified, and what is unclassified but sensitive. This informatino is required so we can mark the document with the correct exemption citations. Upon your review and treatment of all the information, we will analyze and compile your treatments prior to moving ahead to the final review process.

(b)(3)

IMPORTANT - READ BEFORE BEGINNING

(U) in your treatment, we ask that you:
  ¿ DO NOT write over the existing document, but SAVE AS in the folder titled, "Second Review;"

(b)(3)

  ¿ Treat ONLY YOUR OWN OFFICE'S EQUITIES;
  ¿ Do not redact paragraphs in their entirety if there is releaseable information within the paragraph.
    Treat ONLY the classified information for which you can provide a justification that release of which
    would prove harmful to national security;
  ¿ Request that you highlight information for withholding and provide your justification along margin lines or
    in a separate document; and
  ¿ REMEMBER--Feeling *uncomfortable* about releasing certain information is NOT a justification for
    withholding! We need to be able to demonstrate "harm in release" for information denied from release.

Why it needs to be done?

(U) FOIA Law; Freedom of Information Act, 5 U.S.C. Sec 552, as amended
