MEMORANDUM FOR THE DIRECTOR, DEFENSE MAPPING AGENCY

SUBJECT: Modifications to the HEXAGON Mapping Camera System

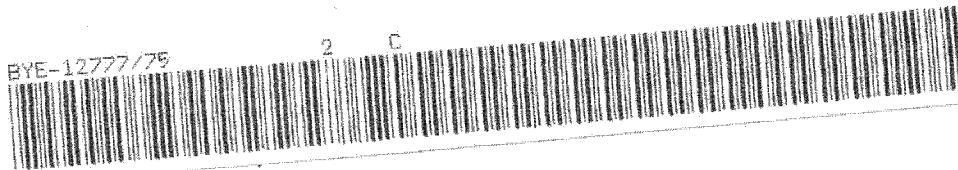

In our message, WHIG 0134, a copy of which is attached, we identified certain modifications to the HEXAGON Mapping Camera System which could be made to improve its effectiveness. A required go-ahead date for each modification was identified. Specifically, a date of 1 March 1975 was specified for a 20% film increase on SV-15 and on.

We have recently received an SAFSP message which states that the capability to incorporate this modification on SV-15 will be lost if go-ahead is not received by 1 April 1975. Request you advise us of your intentions by that date.
