MEMORANDUM FOR: NRO StaffSUBJECT : Raytheon Corporation -- Edmond,
Oklahoma Pilot Land Use Project

1. In coordination with COMIREX Staff, we have reviewed the proposal of Raytheon Corporation (under USA Corps of Engineers contract) to produce 1:24,000 scale unclassified, line map overlays from KH-9 photography for land use classification purposes. We interpose no security objections to this procedure providing that it is understood that the overlays should not be sourced to "satellite photography" or "classified photography."

2. It is suggested that you approve authorization for this activity to the USA Corps of Engineers, rather than dealing directly with the contractor.

Chief, Special Security Center SSC, requested to advise

CofE directly - REL 24 May 74
