The Board will follow the instructions and carry out the tasks specified in my Memorandum of Instructions for the Satellite Basic Assembly Source Selection Board, a copy of which is attached.

The Board will meet at the call of its Chairman, at places he may designate, and will remain constituted as a Source Selection Board until the work specified has been completed and the Board is dissolved by the DNRO. Participation by members in Board activities will take precedence over all other assignments. However, in case of unavoidable absence, six (6) members will constitute a quorum to conduct the business of the Board. In matters requiring a vote, the Chairman and each member present will have an equal vote.

It is essential that the work of the Board be performed with care and dispatch. In addition, all activities of the Board will be conducted in such a manner to protect the security and highly sensitive nature of the system to be developed.
