Contract: [redacted] Lockheed Missiles & Space Company, Request for  
Authority to Furnish Industrial Facilities

1. Proposed Contract Change Notification No. 4 to Contract  
For an optical test under vacuum conditions will require a separate vacuum  
chamber at Lockheed Missiles & Space Company. In our meetings with Lockheed  
we have reviewed this proposed facility expansion. The result of these meet-  
ings is a facility item totaling \$3,100,000, summarized as follows:

Chamber \$3,100,000  
{No include thermal walls, vacuum systems, electrical system, tank farm, pits, control consoles for doors and pumps, ports with feed-thrus, and the basic configuration.}

3. The classification of the above item has been made in accordance with the definitions in Appendix B, ASPR, and after a review by technical personnel. The Contract Change Notification will be issued and definitized subsequent to receiving your approval.

3. In the preparation of the attached Findings and Determination, consideration was given to 10 U.S.C. 2353 and ASPR 13-302.

4. The attached Findings and Determination is recommended to you for approval and signature.

JOSE L. MARTIN, JR.  
Major General, USAF  
Director of Special Projects

## DEPARTMENT OF THE AIR FORCE

## FINDINGS AND DETERMINATION

PURSUANT TO SECTION 2353, TITLE 10, USC

The Department of the Air Force proposes to authorize Lockheed Aircraft Corporation, Lockheed Missiles & Space Company, Sunnyvale, California to provide a vacuum chamber with ancillary equipment to be used to support the Air Force HEXAGON Project.

I hereby find that said facilities have an estimated cost of \$3,100,000, that all of the facility items are severable and may be removed without damage thereto upon completion of the use for which they are authorized; and that the contractor states he does not propose to finance these facility items because their utility is limited to the life of this or similar programs, and is in excess of his known commercial requirements.

Based upon the foregoing findings, I hereby determine that it is in the best interest of the Government that the provision of such facilities be financed by the United States Government and authorize the issuance of said facilities contract.

This determination is made under the provisions of Title 10, U.S. Code, Section 2353, and ASPR Section 13, pursuant to duly delegated authority.
