### EOI PROGRAM

# RELAY SATELLITE SCHEDULE

- Coordination meetings were held at Headqu	arters on
21 and 22 May 1970 with Colonel Richard Dennen.	
Program Manager and his staff for	One of the
primary items discussed was the EOI Relny Satelli	
Agreement was reached on all issues and the	
personnel indicated that the four year schedule is a	realistic and
achievable. In their view the tightest item in the	schedule is
delivery of the RF equipment for the Qualification	Test program.
. The schedule requires delivery of the RF hardware	2 18 months
after start of acquisition. This appears to be a re-	asonable requir
ment.	* !
An area of question was raised at the 18 Ma	irch 1970
briefing of the Fubini Panel on Program 313. The	question
concerned the phasing of the USAF technology prog	
and equipment). The panel seemed to feel	they should
move faster. All of those programs are underway	now and should
provide adequate data prior to system acquisition in	n September
1971. The panel seemed to feel the acquisition sch	edule was
satisfactory and Colonel Dennen stated that he felt t	the plan was
Table I summarizes the key dates and Attac
