MEMORANDUM FOR RECORD

Dr. Wheelon called at approximately 1155 hours this date, in reference to my letter to him of 25 November. He agreed to brief Dr. Fubini, General Stewart, and me on FULCRUM as requested. He said that he would have to await instructions from "his boss" before agreeing to brief the Steering Group, as the letter also requested.

He stated that his organization is not persuaded that the Steering Group is proper or a good idea. He characterized the briefing to Fubini and me as routine and proper.
