MEMORANDUM FOR DIRECTOR, NATIONAL RECONNAISSANCE OFFICE

SUBJECT : Study of Requirements for Image-Forming
Satellite Reconnaissance Responsive to
Warning/Indications Needs

1. The attached study, prepared for USIB by the Committee on Imagery Requirements and Exploitation (COMIREX), deals with the potential of overhead imagery reconnaissance to collect significant and timely warning/indications intelligence information.

2. USIB has noted this study and has requested that NRO evaluate it and determine the feasibility and approximate cost of a collection system that would meet the objectives outlined therein.

3. It would be appreciated if USIB could receive your evaluation within ninety days.
