MEMORANDUM FOR GENERAL KULPA

Mr. Plummer was shown the Washington Post article and the press response prepared by Dr. Schlesinger. For your information his comments are as follows:

"I would favor a reply or some type of countering reply which makes these points.

1. Programs are overviewed by proper Congressional people.
2. Programs are well run and while some overruns exist in this high technology area, they are outstanding compared to most military and non-military procurements."
