H. O. Lorenzen, Head, Countermeasures Branch, Radio Division, NRL

Memorandum on Connolly Report

1. In the attached suggested changes to the Connolly Report I tried to make TATTLETALE appear as primarily in the proposal and study phases. By removing any except the most general description I hope I have made it look like primarily an idea. By removing the exact figures in BUAER support I hoped to convey the feeling of not too definite a proposal.
2. You will note I removed all reference to configuration of the Satellite and to the ELINT stations who might read out the data.
3. If this effort is satisfactory to you CAPTAIN Berg is prepared to follow through with the modifications suggested.
4. I will be at the University of Michigan for the next two days, Wednesday and Thursday - 1 and 2 July 1959. If you want to call me your secretary has my telephone number there. Feel free to call me.

H. O. LORENZEN
