Cooperation of Vanguard Division, NASA with Code 00 on Problem 54R06-29; request for administrative radio receivers			
CONFIDENTIAL			

~~CONFIDENTIAL~~

Chief, Vanguard Division, NASA
4555 Overlook Avenue, S. W.
Washington, D. C.

Dear Sir:

It is requested that Vanguard Division permit [redacted] and [redacted], formerly of NAL Code 5200, to complete the development of five submarine radio receivers. They began this work under [redacted] about September, 1958, in support of Radio Division Problem 54R06-29. Original plans looked toward completion of one receiver by 1 January 1959 and the others about a month later. Physical and electrical characteristics have been subjects of informal agreement between Mr. R. Mayo, Code 5-25A, and [redacted], who will continue to work on the task. He has been reassigned to Code 5100. Mr. M. J. Volaw of Code 5160 has been designated to coordinate efforts of all participating groups and assure adherence to necessary time schedules.

The entire receiver project was originally estimated at \$20,000 by the Electronics Division. Obligations on 30 November totaled \$6,700. Based on estimates from [redacted] and Mr. Volaw the Comptroller has been requested to reassign the \$15,000 balance by providing \$5,000 to Code 4100 (job order 41R06-29) and \$10,000 to Code 5100.

The ECM nature of this project is considered Confidential. Operating frequencies and coding systems are considered Secret. The unclassified code name is "Tattletale."

Confirmation is requested.

Very truly yours,

[redacted]
Superintendent,
Radio Division,
By direction of the Director
