1. INSTRUCTIONS - This form is to be prepared in duplicate and signed by the conferee after each conference between Laboratory personnel and outside persons. Route both copies to Division Head, cognizant Associate Director of Research and Codes 1505 (retains one copy), 4010, 1020, 1530, and to 1523 for file.

2. CONFERENCE DATA

(a) DATE OF CONFERENCE 12 Dec 1958	(b) PLACE NRL, Building 56	(d) DIVISION AND CODE NUMBER	
(c) NAME(S) OF LABORATORY PERSONNEL H. O. Lorenzen		Radio	Code 5430
R. B. Owens		"	Code 5435
R. D. Mayo		"	Code 5435A
V. S. Rose		"	Code 5435A
W. E. Withrow		"	Code 5435B
		"	Code 5436E
(e) NAME(S) OF CONFEREE(S) M. J. Votaw		ARD	Code 5161

(g) PURPOSE OF CONFERENCE
To plan and correlate cooperative work on Problem 54R06-29.

(h) TIME CONSUMED IN CONFERENCE
1 1/2 hours

(i) HIGHEST CLASSIFICATION OF MATERIAL DISCUSSED OR SHOWN Confidential	(j) NRL PROBLEM NUMBER 54R06-29
--	------------------------------------

BRIEF OF RESULTS
Mr. Lorenzen outlined the briefings which he has given on this project and the interest aroused.

Mr. Votaw, the coordinator of this cooperative effort, showed a block diagram of the assembly and discussed the status of work on the several items.

A schedule relative to the electronic units for which bids were requested under Stub 54-0718-9 was outlined as follows.

- Date for opening bids, 15 December 1958
- Date for awarding contract, 22 December 1958
- Date for delivery of prototype (60 days after awarding contract),
20 February 1959
- Date for completion of NRL tests, 9 March 1959
- Date for delivery of production units (30 days after NRL approval
of prototype) 4 April 1959

5430-213:RBO:as

In order to expedite the vibration testing of the prototype, it was decided to offer the successful bidder an NRL sphere in which to mount his units. (The specifications do not require the contractor to supply a sphere which will withstand shock or vibration tests.) Mr. Votaw undertook to obtain drawings of the sphere and internal structure by 22 December; the contractor will be asked to add to these drawings the mounting details for his equipment and return them by 9 January. It is hoped to have a sphere with the essential interior structure ready for the contractor by 16 January. Then his units will be ready for vibration and shock test upon receipt of the prototype.

Approval by Code 5000 of request for priority and of overtime of eight hours per man per week was announced.

The transmitting and receiving frequencies, with their tolerances, will be confirmed at the next meeting which is now planned for 5 January 1959.
