

~~TOP SECRET~~

3. In conclusion at a normal rate of expenditure for the nine months between 1 Nov<sup>Jan</sup> 1965 and 30 June 1966 the tab should be ~~\$4,230K~~<sup>\$5.62</sup> with an additional \$900K for the expansion of the ground station effort and an additional \$250K for the greater sophistication and quantities required for the current set of experimental-hardware. This totals to approximately \$5.4 M but NOTE ~~whixm~~ this carries the program only until 30 June and there will be no Carry-over to support this effort in the early FY-67 months.
