13 December 1965

Director, Program C

Funding Information for "FY 1966

Encl: NRL ltr 5430;jks-BYE-27227-65

1. Enclosure (1) sets forth the NRL estimates for Project 7105 as prepared by NRL.
2. I have asked my staff to question these figures in detail as to their justification as being representative for the 7105 program. As a result of informal discussions with NRL, I am convinced that the six million figure estimated is reasonable and in fact fairly accurate.
3. The four million transmitted in the MIPR is inadequate and will preclude placing certain long range commitments by NRL thus slowing down the program which is presently on schedule. Therefore, I request that the remainder of the funds requested be supplied as rapidly as possible.
