14 December 1966

Code 5600

Diagnostic device; justification for the procurement of

1. The details have been discussed with  and Mr. Mayo in connection with the diagnostic device to assist the overseas site operational program personnel in being able to (on a moments notice) obtain a "GO-NoGO" complete system confidence check before committing the operation to the Analog to Digital conversion course. Once this A/D conversion has taken place, there is no easy way of correcting or making any adjustment of receiver tuning or anything like this.

2. It is, in the best interest of the U.S. Government, that this procurement be made sole source with the Honeywell Company and that every means of expediting this order be taken. Full BRICKBAT .01 PRIORITY applies and the date requested is realistic only if such expediting can be done within the NRL Supply Division.
