INSTRUCTIONS

Prepare 2 copies of this route sheet and forward ALL copies together with necessary correspondence and other documents.

PURPOSES:

1. FOR INFORMATION
2. FOR APPROVAL
3. PREPARE REPLY
4. PREPARE ENDORSEMENT
5. FOR NECESSARY ACTION
6. FOR SIGNATURE
7. RETAIN ENCLOSURES
8. RETAIN COPY

Code 5430

**Radio Astronomy Experiment, Outline of Work Requested from
Cooperating Divisions and Proposed Allocation of Funds
(Problem 54RC6-29)**

1. At the request of Code 5430 for cooperative action by a number of groups in the prosecution of Problem 54RC6-29, involving subminiaturized electronics for supersonic vehicles, a number of oral agreements have been reached, including the delegation by Code 4106 of Code 4105S to serve in a liaison capacity to coordinate and expedite the work among all the groups involved.
2. In order to confirm these oral arrangements the following brief statement is given, showing the nature of the cooperative work of each cooperating code and the estimated cost by half-years for FY 59 as indicated by the several codes to Code 5430 or Code 4105S. All estimates are for five equipments.

Code	Description	Est. Cost (Thousands)		
		1st Half	2nd Half	Total
4115	Shell & framework	20	30	50
4130	Data-link transmitter & modulator, tracking transmitter, hybrid phasing networks, turnstile antenna design, programming device for command receiver, solar-battery-charging power supply, assembly of overall equipment	47.3	49.6	96.9
5230	Thermal & vacuum tests	3	22	25
5260	Command receivers	11	9	20
6260	Shock & vibration tests	15	15	
		78.3	128.6	206.9

3. While specification and design details have been discussed with Codes 4115, 4130 and 5260 by representatives of Code 5430, it is desired that all information and directions be channelled through Code 4105S who will provide each cooperating

code with detailed instructions required in performing its phase of the project, and that Code 4105S maintain records of information passed and agreements reached, as well as a schedule of progress.

4. An A-1 Budget estimate has been received from Code 4130.
5. By copy of this memorandum all codes listed above are requested to furnish Code 5430 an A-1 sheet to supersede the oral estimate, using the short title Radio Astronomy Experiment, and to contact the coordinator, [redacted] Code 4105S, on extension 2513, for liaison purposes. In his absence, it is suggested that reference be made to Mr. Votaw, Code 4133T, in Vanguard, on extension 2469, or Mr. Mayo, Code 5435A, or Mr. Owens, Code 5435, on extension 467.
6. It is requested that all codes consider classified the connection of Code 5430 with this project and that the frequency of the data-link transmitter and the frequency and coding of the command receiver be considered secret.
7. The allocation of funds as outlined above and authorization of overtime by the cooperating codes, when necessary to meet the schedule which Code 4105S will set up, have been requested by Code 5430.

J. H. TREXLER, Acting for
H. O. LORENZEN
