

FRED - HERE ARE A Approved for Release: 2024/06/10 C05025952

WITH CAPT MOFFIT. AT CAPT MURPHY'S

DIRECTION WE WILL DEVELOP THESE THOUGHTS

INTO A BRIEF POINT PAPER FOR RADM FLUCKEY.

~~SECRET~~

~~TOP SECRET~~

v/12

1. It is essential that the Navy improve its posture in the space program. The Navy has special requirements that can not be met by other systems. As a starting point the appropriate OpNav representatives should be brought together to establish an overall Navy policy; this to be submitted to CNO for approval.

2. As an interim measure Op-92 should prepare a plan to improve, and increase,

Navy participation in Program C. When

b. expansion of Navy responsibility to

~~Secret~~~~TOP SECRET~~

this plan has been accepted by CNO, Op-92 through the Navy representatives to the appropriate USIB subcommittee should introduce the necessary papers to bring about the implementation of the Navys plan.

3. Op-92's interim plan should address such items as:

a. use of existing Program C satellites to prove validity of satellite surveillance inputs to an ocean surveillance system

b. expansion of Navys capability to build and operate satellites.
