913 SOFTWARE DIRECTORY

This directory is divided into three sections: Executive programs, operational programs, and field programs. Each section is listed by alpha/numeric order of the catalog number. All known software which has been released for use is listed with the following information included:

- A. Catalog number as assigned in accordance with the Software Cataloging Procedure (CAT #WC-WO9G) of 1 July 1968.
- B. Name and/or description
- C. Date of completion or release
- D. Status. The following designations apply:
 - 1. O - Obsolete program
 - 2. C - Current programs with no immediate modifications needed.
 - 3. F - Intended for future use.
 - 4. D - Programs completed but under test.
 - 5. U - Workable programs which are unused.
 - 6. CL - Current programs which have limitations or for which revisions are intended.
 - 7. SW - Superseded programs which are still usable with no problems known.
- E. Dissemination to
 - S - Paper tape source
 - O - Paper tape object
 - D - Paper tape dump

NOTE: Numbers under these columns indicate when the paper tape was delivered.

EARPOP

#1 - Delivered prior to 1/31/68.

#2 - Sent via on 2/1/68.

#3 - Mailed on 4/8/68.

#4 - Delivered by 6/21/68.

#5 - Known to exist as of 6/27/68.

#6 - Sent 30 September, 1968.

F. Magnetic tape usage. The letter under appropriate system tape number indicates the call used to load that program. ST1 (Systems Tape #1), ST2, ST3, and R.2 (Release #2 of TOS/810) were made at HRB-Singer, Inc. ST4 was made by the field site (R.1 was the basic executive tape for ST4). TOS/810 R.3 was sent 30 Sept, 1968.

G. Documentation status for each program is indicated by the following letters:

I - Instructions only exist.

R - A rough draft of formal documentation has been written and disseminated.

RU - An update to a rough draft has been written and disseminated.

F - Formal documentation has been released.
