SEP 9 1968

MEMORANDUM FOR THE DIRECTOR, PROGRAM C

SUBJECT: F.Y. 1969 Program Approval, NRL POPPY Effort

Reference Director, Program C BYE-64659/68, dated 26 August 1968, which enclosed FY 1968, FY 1969 and FY 1970 revised cost data for Missions 7106, 7107 [redacted]. The FY 1970 estimate of \$7.689 million will be included in my recommended budget.

The material also reflected an FY 1969 funding deficiency of \$554.4K (excluding [redacted]), attributable to new work and FY 68 work carried over as a result of the Gravity Gradient Stabilization Problem (reflected in enclosure 2). These efforts are approved, and your FY 1969 program will be increased by the net \$554.4K. However, particularly in view of the overall NRP funding situation, it is my opinion that the [redacted] digital system at \$427K should not proceed in FY 1969. If there is a significant benefit, coupled with an urgency for the [redacted] effort, I will reconsider your proposal.

Signed

ALEXANDER H. FLAX
Director
