Berman Paper
Advanced Sensor Study

SIGINT Satellite

HOL report on to-day's UHIC SATCOM meeting with Deke.
SPRMSO seems to be getting the contract negotiation job.
Feedback on CNO-George exchange on contingency plans.

Adv. Sensor Study (Skolnick, Allen, Raben)

Skolnick ^{now} wants to do Phase II (up to end of funds in
about Aug); thinks 7900 should come on in "Phase II"
(in July for about \$150K). Discuss about Phase II.
S. tendency to brush off NREL OIC and sat. capability.
Not interested in follow-on implications.
Left to Skolnick and Torgerson to try to work out, otherwise
issue to be pushed to 5000 and 7000.

(Berman Paper (on O/S))

Mayo, HOL, other comments — tech & policy problems,
trade-offs. Options on handling the AB think piece.
Agreed to incorporate it as an input into the
SIGINT Study.

Updating on SIGINT Satellite developments HRB idea, action
