Availability of SM 65A Missiles for WS 117L

WDTC (JDH)

1. The attached copy of memo is forwarded for your information.
2. It is requested that you coordinate with Commander Truax when preparing revisions to missile allocations, and that he be kept informed of possibilities of missiles and supporting equipment becoming available to WS-117L from currently programmed equipment.
3. The above does not mean that missiles will be programmed against a possible WS-117L requirement, but rather, that the requirements of WS-117L as approved will be considered in any revision of WS-107A-1 missile allocations or production quantities.
