

WDTs
MEMORANDUM FOR THE RECORD

25 August 1958

SUBJECT: Telephone Conversation with NASA Personnel

1. Mr. Paul Fursner called this date and stated that NASA was interested in the use of Thor-Able type vehicles for possible use as satellite launching vehicles. These vehicles are to be used during the next phase of IOY for scientific purposes.

2. Mr. Fursner and other NASA personnel plan to be in the Los Angeles area around 5 September and would like to visit AFSSM to discuss the use of these vehicles. Mr. Fursner indicated that he would probably be accompanied by Mr. W. J. O'Sullivan, Dr. Eggers and Mr. Goett and that clearances would be forwarded through normal channels.

3. I told Mr. Fursner that we would be most happy to discuss Thor-Able vehicles with them and that I would assure that the proper people were available on 5 September to provide the information which he desired.
