MEMORANDUM FOR: Committee on Overhead Reconnaissance
SUBJECT: Satellite Coverage of TALL KING

1. At the last meeting Major Shepherd advised of the SIGINT Working Group's establishment of an urgent objective to maintain a quarterly update of TALL KING ██████████ radar deployment on the interior of the Sino-Soviet bloc. ^{for SIGINT up date} The SWG likewise advises that the date of the latest information on the location of TALL KING in the interior of the USSR is June 1963. SWG feels that in the event this objective cannot be satisfied promptly by the ^{three candidates} ██████████, now operational, a special ROB package should be launched within the next 60 to 90 days with repeated coverage of this objective quarterly.

2. It is suggested that the NRO discuss this matter at the meeting on 5 March and that COMOR then consider whether it wishes to endorse the SWG request in the light of NRO's briefing.
