MEMORANDUM FOR GENERAL SCHRIEVER

SUBJECT: Report on Man in the MOL

Attached is a draft of the Report on the Man in the MOL study. The report is substantially in its very rough initial form and is a good deal more lengthy than we anticipate the final report to be. We considered it important as a first step to table all our thoughts in written form so that none would be lost. West Coast comments are not included in the Report due to press of time. However, Colonel Heran advises us by telephone that the West Coast is in substantial agreement with its content.

We expect to have the Report edited and polished into its final form within the next two weeks.
