

# Build your own CubeSat!

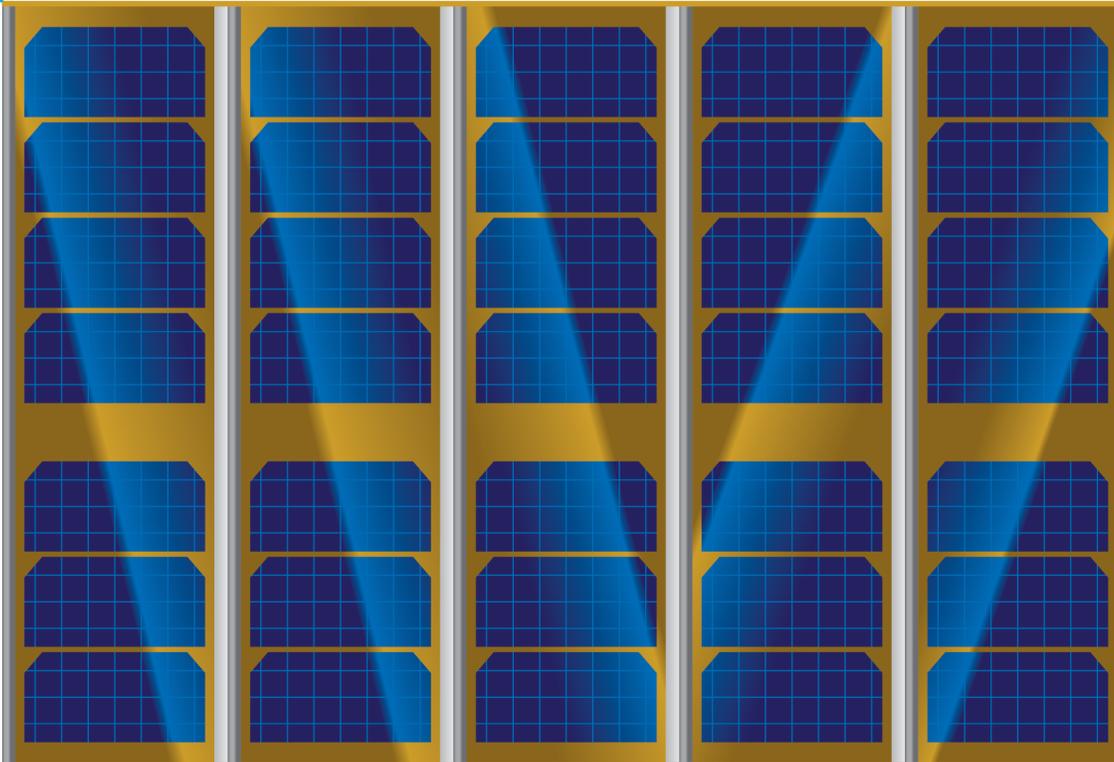

This 1:3 scale model is based off a 3U (3 unit) CubeSat

**Step 1:** Cut and fold CubeSat body (A) and solar array (B).

**Step 2:** Apply glue or tape to tabs on body (A) and attach accordingly.

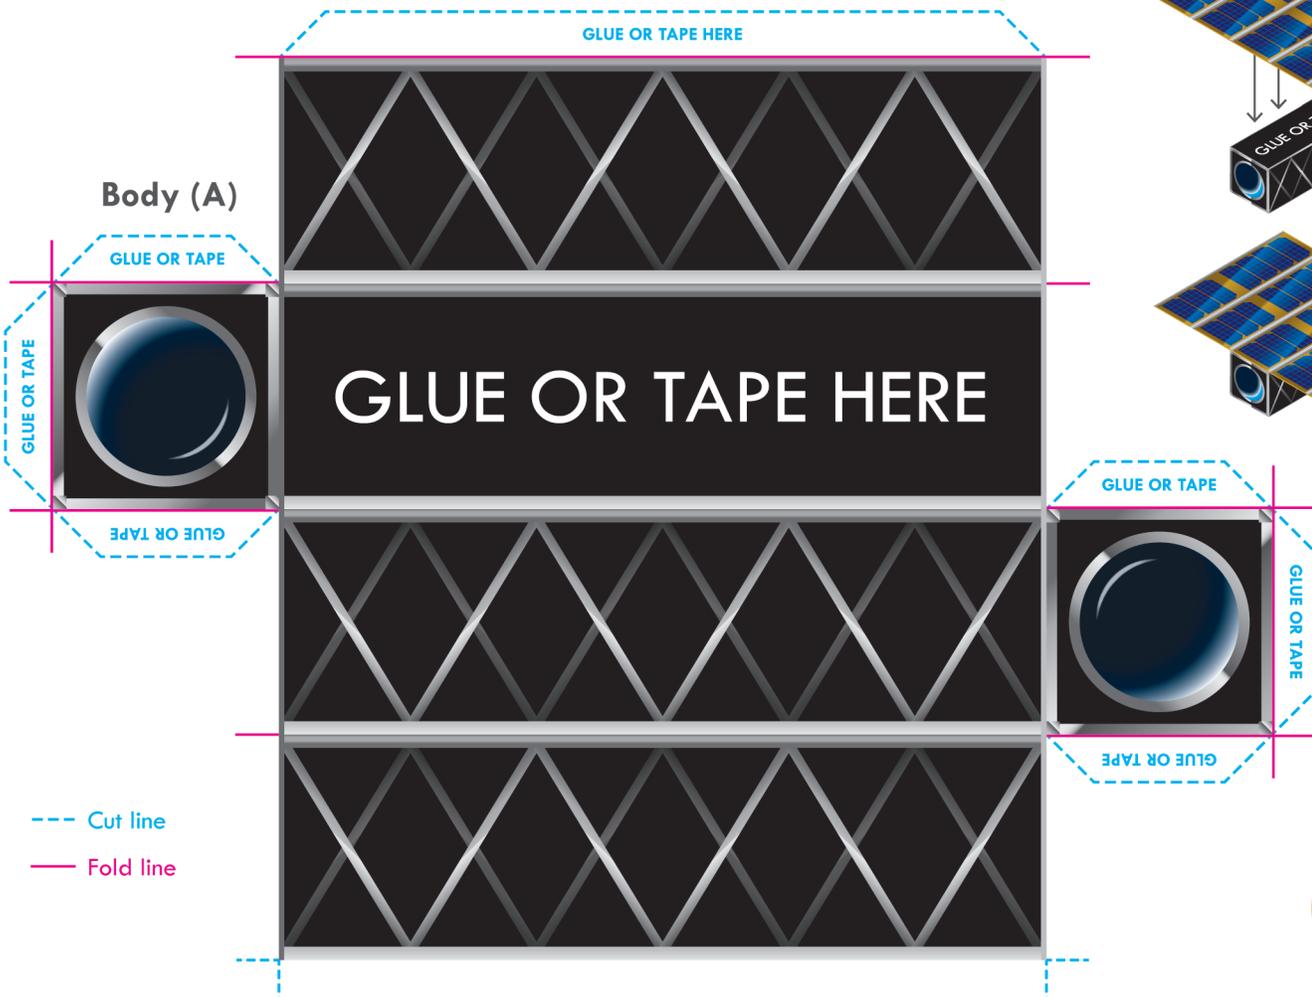

**Step 3:** Apply glue or tape to side of body (A), and attach to middle panel of solar array (B).
