DEPARTMENT OF THE AIR FORCE
WASHINGTON

OFFICE OF THE UNDER SECRETARY

22 SEP 1964

MEMORANDUM FOR DIRECTOR, PROGRAM A

SUBJECT: Satellite Space Vehicle Markings

Our experience with the Mission 1005 re-entry capsule which we recovered from Venezuela indicates that we should remove all classification markings from the orbiting vehicles (including components other than the re-entry capsule to that extent feasible without attracting unusual attention of non-witting USAF personnel due to A.F. security regulation non-compliance) and incorporate into the re-entry capsules the following multi-language notice of reward for its return:

NOTICE

This equipment is the property of the United States Government. A reward will be paid for its prompt return to nearest United States authorities.

(Translated into the following languages, in addition to English for inclusion in re-entry capsules.)

- Spanish
- Portugese
- French
- Norwegian
- Russian
- Chinese
- Arabic

Please inform me when these provisions will be accomplished.
