1 August 1963

MEMORANDUM FOR: Dr. Wheelon

SUBJECT : Additional ARGON Payload

I have asked Gene Kiefer and Mr. Reber to look into the question of the additional ARGON payloads described in cable, [REDACTED]. This may reveal a situation in which the NRO has ordered more payloads, believing that this is what USIB wants, whereas USIB has never said they needed anymore.

[REDACTED]
Acting Deputy Director
(Research)

ADD/R/ [REDACTED]

Distribution:
[REDACTED]

Declassified and Released by the NRO

In Accordance with E. O. 12958
