MEMORANDUM FOR: Assistant Director, OSA

SUBJECT : Request for Clarification of Responsibilities of the Configuration Control Board

1. Since the Configuration Control Board has been established, there have been doubts in the Operations Division as to its relationship with this Board. I have asked on numerous occasions for a clarification in regards to the Board functions and areas of responsibility.
2. Recently, the attached cable was dispatched from the NPIC communications facility by the President of the Configuration Control Board directing actions be taken in the payload area.
3. It has always been my belief that your office has the final authority in decisions affecting the payload of the Discoverer program. Therefore, it is recommended that the attached letter requesting areas of responsibility be forwarded to the President of the Configuration Control Board, through our representative, for action.

SIGNED

[Redacted Signature]  
Lt. Colonel, USAF  
Chief, Operations Division, OSA
