CORONA

[REDACTED] FOR COL MURPHY, [REDACTED]

REF A. [REDACTED]

B. [REDACTED]

AS STATED IN REF A THEORETICAL INVESTIGATIONS AND LAB TEST RESULTS INDICATE THAT THE INSTALLATION OF A WRATTEN 25 FILTER ON ONE OF THE INSTRUMENTS SHOULD NOT DEGRADE THE RESULTS SO FAR AS IMAGE MOTION, RESOLUTION, AND FOCAL SHIFT ARE CONCERNED. THEREFORE, WE KNOW OF NO REASON THIS EXPERIMENT CANNOT BE CONDUCTED ON J-7 AND CONCUR WITH RECOMMENDATION TO INSTALL THE W-25 ON THE MASTER CAMERA WITH 0.250 INCH WIDE SLIT.
