## MEMORANDUM FOR THE RECORD

SUBJECT: Platinum

[redacted] called on Wednesday, June 18 and stated that the delivery of the platinum to GSA would be accomplished at 1030 on July 8. I called [redacted] to reconfirm the time and date and to similarly confirm the place of delivery. Mr. [redacted] stated that it was going back to the depot in New Jersey. I told [redacted] that the shipment should go to the assay office in New York via the depot in New Jersey. After a few moments of discussion, I told [redacted] that the platinum delivery instructions were on the shipping orders I had sent to him previously.

On Monday, June 23 I called [redacted] to reconfirm the date, place and time of delivery. He stated that all was in order and requested that I furnish to him a contact and the identification number of the person who would accept delivery. I called Mr. [redacted] GSA, and informed him of the delivery schedule. I requested identification of the receivers of the shipment and he promised to provide them. I told [redacted] that I would confirm the date, place and time to him in writing.
