MEMORANDUM FOR COLONEL BRADBURN

DR. NAKA

SUBJECT: Outside Participation in the Review, Analysis and Management of NRP Resources

I understand that Dr. Naka expressed an interest in identifying and listing the myriad of outside studies and papers which are concerned, at least in part, with the management and operation of the NRP. Below is a beginning of such a list of on-going or just completed efforts. We suggest that this list be passed through the Staff for completion of the information and correction of errors or omissions on the list.
