This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to BYEMAN Control System.
MEMORANDUM FOR BRIG GEN STEWART

VIA: COL WORTHMAN

SUBJECT: Tagboard Test Program/Contingency Plan

Re your question contained in attached note.

A contingency plan for Tagboard Test program has been prepared – see attached. I understand that Col Geary discussed this with Dr. McMillan and in fact the quoted language in paragraph 2 is Dr. McMillan's.

I think we should delineate between those contingency plans for state-side test programs and those which concern actual operations over desired areas. I see no reason for ICPC consideration of the former. I think such matters are solely the business of the Program Directorate - and of course the D/NRO.

Mr Mazza

Is there a contingency Plan for Tagboard flight test Program? Is Col Gcury working on one?

If not, prepare memo for my sig to Col G requesting that he prepare one post haste
