DACOM TO MR. COHEN

SUBJECT: "Rules" for Reporting NRP Launches to the UN

✓ First, please review the first 5 pages of [redacted] 0073 (202345Z Jan 78) for a tutorial on how we report our launches to the UN.

✓ Second, recall the current reporting requirements, as modified by our 23 Feb 77 letter to STATE (copy attached hereto).

Thirdly, have a look at NASA's proposed reporting scheme in the STS era. (This was originally DACOM'd to you on 12-9-77).

Finally, be aware that SAFOI notified us yesterday that the whole question of launch announcements and launch PIO is under review by O3D/PA. This was prompted by the Navy.

Hope this helps.

David
David

Before they allow any change in public policy to occur if that we get our input!
