Description: What needs to be done?
(U) OSL SME review of documents for responsiveness to a FOIA request.

(U//FOUO) Please provide (by 11 January 2013) the name of a cognizant person in OSL and a date and time that they are available to view the documents at . We expect that this task can be completed in approximately two hours. The preliminary review needs to be completed by 18 January 2013.

Why it needs to be done?
(U) The NRO is legally obligated to provide responses to FOIA requesters in a timely manner. The IART has three boxes of documents from a remote launch location that are potentially responsive to a FOIA request (F12-0120) regarding the EPF at Cape Canaveral. The IART requires OSL subject matter expertise in determining the responsiveness of these documents.

Description: What needs to be done? OS/OSC Final Reviews of FOIA-responsive documents prior to EO 12600 review by contractor (KBR)

Why it needs to be done? FOIA

(U//FOUO) This is the first in what will be a long series of responsive document sets for this case. The NRO will be processing numerous interim releases as document initial reviews are completed. For this set of documents, we are requesting Final Review prior to NRO's submission of documents to KBR, Inc., for their review for proprietary information in accordance with EO 12600. Once the KBR review is complete, the IRRG will submit the resultant set of documents to OGC prior to our final release determination.

OGC concurs in the treatment of the documents, the cited exemptions, and the draft response letter. What tremendous work IRRG has done to respond to this FOIA request! I compliment you for your thorough document review and especially for your careful attention to the predisclosure notification provisions of EO 12600 to give the submitter an opportunity to claim protection for confidential commercial information. Three cheers! Enjoy your weekend.

Kind regards,
